

CRIME PREVENTION MODEL

Executive Summary · Summit Agro Chile SpA

Our Commitment

At Summit Agro Chile SpA, we uphold the highest standards of integrity, transparency and legal compliance throughout our operations. To this end, we have implemented a Crime Prevention Model (CPM), designed in accordance with Law N° 20.393, which governs the criminal liability of legal entities, as amended by Law No. 21,595 on economic offenses and environmental harm.

The CPM is an ongoing management tool that identifies crime-related risks in our processes, establishes controls to prevent them and promotes a culture of integrity among Company personnel and the third parties with whom we interact.

Scope

The Model and its policies are mandatory for the directors, executives and employees of Summit Agro Chile SpA, as well as for third parties that interact with the Company, including customers, suppliers, distributors and service providers, within the framework of its operations.

Offenses We Seek to Prevent

The CPM addresses the offenses included in Law No. 20,393, as expanded by Law N°. 21.595, including:

- Bribery of domestic and foreign public officials.
- Private corruption and unfair administration.
- Money laundering, handling of stolen goods and terrorist financing.
- Economic and tax offenses.
- Environmental offenses.
- Cybercrime and other offenses established by law.

Management Areas and Risks

Prevention applies across the Company's critical processes and its interactions with employees and third parties, including:

- **Management and Senior Leadership:** strategic decisions, material contracts and relationships with authorities.
- **Finance, Accounting and Treasury:** payments, accounting records, taxes and financial statements.
- **Sales and Business Development:** customer relationships, commercial policies, discounts and promotions.
- **Procurement and Supply Chain:** supplier selection, imports and logistics.
- **People:** recruitment, compensation and benefits.
- **Operations, R&D and Environment:** management of crop protection products and environmental compliance.
- **Information Technology:** use of systems and information protection.

Model Governance

- **Board of Directors and Senior Management:** approve, support and provide resources for the CPM.
- **Compliance Committee:** oversees the operation of the Model, evaluates audits and promotes continuous improvement.
- **Compliance Officer:** is responsible for managing the CPM, operates with autonomy and direct access to Management, and coordinates controls, training and the whistleblowing channel.

Prevention, Communication and Training

The Company maintains supporting policies and procedures, periodic training and awareness campaigns with educational materials so that employees and third parties understand the Model and know how to prevent, detect and report potential non-compliance. At Summit Agro Chile, prevention means taking care of one another.

Whistleblowing Channel

Summit Agro Chile provides a formal channel for reporting irregularities, non-compliance or suspected offenses. It must be used responsibly and in good faith.

- **Access:** available on the website at <http://summit-agro.com/cl/compliance>
- **Confidentiality:** reports are handled confidentially, and the reporting person's anonymity may be protected.
- **Non-retaliation:** employees and third parties who report concerns in good faith are protected against retaliation.

Culture of Integrity

At Summit Agro Chile, we believe that crime prevention is a shared responsibility across all areas and levels of the organization, as well as among our customers and suppliers. An effective Model, a Compliance Committee, an autonomous Compliance Officer and effective reporting channels form the foundation for protecting the Company and strengthening a culture of integrity and compliance.
